

Directorate of Curriculum and Teacher Education

Khyber Pakhtunkhwa, Abbottabad.

Induction Program Phase-IV. (Exam-I)

PST

Time: 03hrs

Subject: Classroom Management & Assessment

Total Marks: 100

Section A

(Marks: 20)

Q.1. Choose the correct answer and write them in your Answer book.

- i. The branch of study that deals with the theory and practice of classification is known as:
(a) Psychology (b) Chronology (c) Pedagogy (d) Taxonomy
- ii. The major purpose for grouping students is:
(a) To make teaching easier for the instructor (b) To reduce administrative workload
(c) Individualization (d) To strictly separate students by age
- iii. Which seating arrangement is characterized by placing students in direct eye contact with both the educator and all their peers, facilitating interaction as one large unit?
(a) Traditional Rows (b) Cluster Seating (c) U-Shape Method (d) Pair Pods
- iv. Which of the following is one of the four basic principles for setting up an organized classroom?
(a) Use the most expensive teaching materials available
(b) Ensure high-traffic areas are kept clear of obstructions
(c) Arrange seats so students cannot see each other
(d) Place all educational materials in a locked cabinet
- v. Grouping pattern where students move to different teachers for different subjects during a set period:
(a) intra-classroom ability grouping (b) inter-classroom subject grouping
(c) special ability grouping (d) ungraded grouping
- vi. Which strategy is recommended for teaching students with learning disabilities regarding homework?
(a) Completely eliminating homework requirements
(b) Using a homework calendar to help with organization
(c) Focusing only on in-class assignments
(d) Allowing unlimited time for completion
- vii. The primary characteristic of a well-stated classroom rule is:
(a) It should be lengthy to cover all possible scenarios
(b) It should be stated in the positive and be simple and specific
(c) It should focus on what students should not do
(d) It should be decided solely by the teacher without student input
- viii. If a student mentally withdraws from a lesson because the material is not challenging enough, the root cause of this behavior is most likely a problem with the:
(a) Classroom Environment (b) Curriculum (c) Peer Pressure (d) Biological Factors
- ix. According to Dr. Rudolf Dreikurs, the most common motive for student misbehavior is:
(a) Desire for Power (b) Looking for Revenge
(c) Lack of Self-Confidence (d) Seeking Attention
- x. A teacher stops talking mid-sentence and looks non-aggressively at a noisy student. This is a suggested strategy for dealing with:
(a) Bullying Students (b) Inattentive Students
(c) Noisy Students (d) Domineering Students
- xi. According to the principles of timetable construction, the 'Principle of Elasticity' is important as:
(a) It allows the school day to be extended indefinitely
(b) It ensures the timetable is completely rigid and never changes
(c) It provides for necessary alterations while maintaining a core routine
(d) It means that teachers do not need any free periods
- xii. A key 'Educational Value' of co-curricular activities like excursions and tours is identified as:
(a) They provide a break from all academic learning
(b) They impart practical knowledge and reinforce classroom learning
(c) They are the only way to teach students about history
(d) They reduce the total number of teaching hours required
- xiii. One of the primary psychological values of co-curricular activities is that:
(a) They ensure students become professional athletes
(b) They act as an agent for the sublimation of instincts
(c) They replace the need for academic subjects
(d) They guarantee higher grades in all subjects
- xiv. A teacher observes that students are struggling with a concept and decides to re-teach it the next day. This is an example of using assessment for:
(a) Grading (b) Diagnosis (c) Instruction (d) Measurement

- xv. Which dimension describes Assessment as "Process-Oriented" and Evaluation as "Product-Oriented"?
 (a) Timing (b) Focus of Measurement
 (c) Relationship between Administrator and Recipient (d) Modifiability of Criteria
- xvi. The specific behavior dimensions used to judge if a standard has been met are called:
 (a) Objectives (b) Criteria (c) Measurements (d) Evaluations
- xvii. The primary purpose of formative assessment is:
 (a) To assign a final grade at the end of a unit
 (b) To provide feedback to adjust ongoing teaching and learning
 (c) To rank students against their peers
 (d) To prepare students for high-stakes standardized tests
- xviii. Which type of homework task involves using graded readers or listening to podcasts?
 (a) Workbook-based tasks (b) Preparation tasks
 (c) Extensive tasks (d) Guided discovery tasks
- xix. The major advantage of Restricted-Response Questions (RRQs) is that:
 (a) They are quick and easy to score automatically
 (b) They minimize the role of teacher judgment
 (c) They reduce guessing and test a wider range of abilities
 (d) They are ideal for assessing simple memorization of facts
- xx. A key principle for effective homework is that:
 (a) It should primarily replicate what was done in class
 (b) It should be manageable in terms of time and difficulty
 (c) It should be identical for all students in the class
 (d) It does not need to be assessed if it's for practice

Section B

(Marks: 40)

NOTE: Attempt any EIGHT questions. All questions carry equal marks.

- Q.1. What are the two key parties involved in the formative assessment process, according to its definition?
- Q.2. Define assessment cycle? Name all four steps of assessment cycle.
- Q.3. List two purposes of assigning homework, as mentioned in the handout.
- Q.4. What is the main emphasis of classroom evaluation?
- Q.5. Write two major functions of classroom assessment, as pointed out by Biggs (1999)?
- Q.6. List two civic values that students develop by participating in co-curricular activities.
- Q.7. What is the main purpose of providing "free periods" for teachers?
- Q.8. What is the "golden rule" of dealing with disruptive behavior in the classroom, and why is it important?
- Q.9. Define *Covert Behavior* and provide one example not mentioned in the text. (Example: Feeling jealous)
- Q.10. Besides reminding students of the rules, what is one other key strategy teachers should use when students follow the rules, and what is its purpose?
- Q.11. List two of the tips provided for parents to create a "homework-friendly area."

Section C

(Marks: 40)

NOTE: Attempt any FOUR questions. All questions carry equal marks.

- Q.1. Compare and contrast the U-Shape and Cluster seating arrangements.
- Q.2. Describe the process of introducing and teaching classroom rules to students, from development to reinforcement.
- Q.3. A teacher designs a multiple-choice question with the stem: "Which of the following is NOT a prime number?" and the options: A. 2, B. 3, C. 4, D. 5. Evaluate the quality of this question based on at least three different guidelines for constructing MCQs. For each guideline you cite, explain whether the question follows it and suggest a specific improvement if it does not.
- Q.4. Explain how both a well-constructed school timetable and a robust program of co-curricular activities work together to contribute to the holistic development of a student.
- Q.5. Describe the process of introducing and teaching classroom rules to students, from development to reinforcement.
- Q.6. Compare and contrast formative and summative assessment.
