Khyber Pakhtunkhwa, Abbottabad.

Induction Program Phase-IV. (Exam-I)

PST

Time: 03hrs

Subject: General Science

Total Marks: 70

Section A

(Marks: 14)

Q.1. Choose the correct answer and write them in your Answer book.

- i. The number of various types of living things found at a particular place is called:
(a) Ecosystem diversity (b) ☒ Biodiversity (c) Genetic Diversity (d) Species diversity
- ii. Predation is the relationship between:
(a) Host and Parasite (b) Herbivores and Carnivores
(c) ☒ Prey and Predator (d) Producers and Consumer
- iii. Global Handwashing Day is on:
(a) 15th September (b) ☒ 15th October (c) 15th March (d) 15th May
- iv. For the beautification of sweets, is used:
(a) Aluminum foil (b) Copper foil (c) Gold foil (d) ☒ Silver foil
- v. To hear a clear echo, the reflecting surface should be away from the source of sound.
(a) 7 m (b) ☒ 17 m (c) 37 m (d) 27 m
- vi. The effect of using a pulley on lifting a weight is:
(a) It makes lifting a weight harder (b) It makes lifting a weight easier
(c) It doesn't change the effort needed to lift a weight (d) ☒ It increases the weight of object
- vii. Crude oil is formed:
(a) Above ground (b) Under water (c) ☒ Underground (d) in glaciers
- viii. The climate of the Zone is mild:
(a) Tropical (b) ☒ Temperate (c) Polar (d) Subtropical
- ix. All planets of the Solar System have moons except and:
(a) ☒ Mercury and Venus (b) Jupiter and Saturn
(c) Venus and Neptune (d) Earth and Jupiter
- x. Which group is found only in Oceans?
(a) Fish (b) Echinoderms (c) Amphibians (d) Insects
- xi. When a metal expands on heating, this type of change is called:
(a) Chemical (b) ☒ Physical (c) Irreversible (d) Reversible
- xii. The organisms like are neither like plants nor like animals:
(a) Fungi (b) Bacteria (c) ☒ Virus (d) Algae
- xiii. The Pollen grains are formed in the:
(a) Stamen (b) Filament (c) ☒ Anther (d) Carpel
- xiv. Magnets made from iron can be:
(a) ☒ Temporary magnet (b) Permanent magnet
(c) Electromagnet (d) Non-magnetic

Section B

(Marks: 28)

NOTE: Attempt any SEVEN questions. All questions carry equal marks.

- Q.1. ✓ Define the following:
a. Self-pollination
b. Cross-pollination
- Q.2. Describe the demerits of the demonstration and laboratory methods of teaching science.
- Q.3. ✓ What are microorganisms? Name two diseases caused by virus, bacteria, and fungi each.
- Q.4. ✓ Describe briefly the four different methods of teaching science.
- Q.5. ✓ What are the four skills that teachers should encourage students to develop towards science and technology?
- Q.6. (a) Briefly explain the term reflection of light.
(b) How is a rainbow formed?
- Q.7. ✓ Briefly explain the four key objectives of teaching science at the primary level.
- Q.8. ✓ (a) Define the term temperature.
(b) What happens to the temperature of a hot object when it is brought into contact with a cold object?

Section C

(Marks: 28)

NOTE: Attempt any TWO questions.

- Q.1. ✓ (a) What is matter? Explain its three states with the help of a diagram.
(b) Differentiate between physical and chemical changes of matter.
- Q.2. ✓ (a) What is pollution and what are its main types?
(b) Compare and contrast biodegradable and non-biodegradable materials.
- Q.3. (a) Illustrate the Solar System with a diagram.
(b) Explain Lunar and Solar Eclipses.
- Q.4. (a) What are the three basic fields of science, and why is it important for primary teacher to have knowledge of these fields?
(b) What is blended learning? Explain it with the help of an example.
